Risk description

The product has an excessive amount of nicotine-containing liquid (measured value: 20 ml). This can lead to the accidental consumption of a high dose of nicotine. Nicotine is acutely toxic and can endanger the user's safety, notably if the product comes into contact with the skin or is ingested. Moreover, the product is insufficiently labelled, as the unit packaging does not include information on the amount of nicotine in the dose, or a complete list of ingredients.
